Agriculture and Agricultural Economics Databases

**Agricola (Ebscohost)**
The AGRICOLA (Agricultural Online Access) database contains bibliographic records of materials acquired by the National Agricultural Library (NAL) and cooperating institutions in the agricultural and related sciences. Ninety percent of the records describe journal articles and book chapters, and the remaining ten percent describe monographs, series, microforms, audiovisuals, maps, and other types of materials. Together they provide worldwide coverage of the agricultural literature. In addition, AGRICOLA contains subfiles of related bibliographic citations that have been prepared by sources other than the National Agricultural Library, for example, the Food and Nutrition Information Center (FNIC) and the American Agricultural Economics Documentation Center (AAEDC). These and other information centers and cooperators contribute subfiles to AGRICOLA covering special subjects. Pre-1979 AGRICOLA records are derived from the CAIN format; from 1979 on, MARC-formatted records are used to create the database.

**CAB Abstracts (6 users)**
CAB Abstracts is a database covering international issues in agriculture, forestry, and allied disciplines in the life sciences. The database contains over 3.5 million records from over 11,000 journals, books, conferences, reports, and other kinds of literature published internationally. CAB abstracts cover the subject of agriculture in the broadest sense. It includes: agronomy, biotechnology, crop protection, dairy science, economics, environmental degradation and remediation, forestry, genetics, herbicides, irrigation, leisure, recreation and tourism, microbiology, nutrition, parasitology, rural development, veterinary medicine, and much more. CAB Abstracts is the largest professionally-produced database covering international issues in agriculture, forestry, and allied disciplines in the life sciences. The database contains over 3.5 million records from over 11,000 journals, books, conferences, reports, and other kinds of literature published internationally.

**AgEcon Search**
AgEcon Search collects, indexes, and electronically distributes full text copies of scholarly research in the broadly defined field of agricultural economics including sub disciplines such as agribusiness, food supply, natural resource economics, environmental economics, policy issues, agricultural trade, and economic development. AgEcon Search will serve as the permanent archive for this literature and encourages authors and organizations to use this electronic library as the storehouse for additional appropriate scholarly electronic works. AgEcon Search: Research in Agricultural and Applied Economics is a World Wide Web site developed and maintained at the University of Minnesota by Maasrath Library and the Department of Applied Economics. The site has received encouragement and financial support from the American Economics Association, the Economic Research Service of the United States Department of Agriculture, and the Farm Foundation.

Seven strategies for enabling faculty success in distance education

Scott L. Howell, R. Parhad Saba, Nathan A. Lindsay, Peter B. Williams

Abstract
Many challenges associated with distance education and technology integration initiatives focus on faculty issues and concerns. This article analyzes these difficulties by identifying from the literature current trends affecting faculty, faculty motivators, and faculty challenges. Then, following this review and analysis, the article presents seven strategies for university administrators and faculty to
EXPLORE THE COMMONS

The Research Commons offers a suite of services to foster interdisciplinary connections and support graduate student and faculty research needs.

Make an Appointment With Your Subject Librarian

OPEN ACCESS

Accelerated Discovery. Public Enrichment. Improved Education.

Open Access Author Fund
We provide support for Open Access publishing and will help you identify the best way to make your work available worldwide.

Read More About the Open Access Author Fund

The Research Repository @ WVU
The Research Repository allows you to archive your research and make it openly accessible without any changes.

Visit the Research Repository
TRY OUR SERVICES

Explore a suite of services designed to assist you in your research.

Consultations
Whether you are embarking on a project or a literature review, we offer consultations to meet your research needs.

Scholarly Communications & Publishing
The Libraries can help maximize the impact, reach and dissemination of your scholarship.

Spaces
 Reserve one of our classrooms, group study rooms, or presentation practice rooms.

Technology
Use our technology resources to show off your research.

Workshops
From citation management to coding for data analysis, we hold workshops to meet a variety of research needs.

Upcoming Events
No events available at this time.
Scholarly Communications & Publishing

We offer scholarly communications and publishing services to maximize the impact, reach, and dissemination of your scholarship.

Authors' Rights and Copyright
We can help you understand the terms of publisher agreements and development strategies for negotiating to retain the rights that are important to you, including the rights to reuse your works or post them online.

The Research Repository @ WVU
The Research Repository allows you to archive your research works so that they remain accessible without any changes. It can also be used to share your research sections, datasets, images, and other innovative forms of scholarly communication.

Open Access
We provide support for Open Access publishing and can help you identify the best way to make your work available worldwide. This includes utilizing the Open Access Author Fund, open access indexing in The Research Repository @ WVU, and through consultations and workshops.

Digital Publishing Institute
The Institute offers support for researchers who want to publish a work of digital scholarship as a supplement to a book or article, or as a standalone entity. We can work with you to identify platforms for publishing your research in the way that best fits your project.

Research Data Management
We provide support for the development of data management plans and help you incorporate best practices for data management into your research processes. The Libraries also support the sharing and publication of datasets through the Research Repository @ WVU.

Metrics, Impact, and Visibility
Learn about the different metrics to measure and increase the impact and visibility of your research and how to manage your online scholarly presence.

Deciding Where to Publish
We provide support on finding a publication that fits the scope of your research. This includes identifying reputable venues, guidelines for evaluating journals, identifying high-quality avenues, and avoiding low-quality and predatory journals.
TECHNOLOGY RESOURCES

Use our technology to show off your research.

Poster Printing
For conference posters and other presentations the Libraries offer economical poster printing at each location.

Equipment
Borrow multimedia equipment including video capture, green screens, and many types of recording equipment.

Computers
Desktop and laptop computers provide productivity software, with some offering the Adobe Creative Cloud.

Read More About Poster Printing
Read More About Our Equipment
Read More About Our Computers
WVU Libraries offer a wide variety of open workshops designed to assist you in developing your skills in citation management, research strategies, data analysis and management, scholarship and publishing, classroom resources, and discipline/subject-specific resources. These workshops are free and open to registered WVU students, faculty and staff.

Upcoming Workshops

- **ProQuest Dissertations and Theses**  
  10:00am - 10:50am Tuesday, August 23, 2022

- **From Page to Database: Finding Scholarly Articles from Popular Sources**  
  3:00pm - 4:00pm Wednesday, August 24, 2022

- **Finding Fulltext...Fast**  
  4:00pm - 4:45pm Thursday, August 25, 2022

- **Introduction to Intellectual Property**  
  10:00am - 11:30am Friday, August 26, 2022

- **HathiTrust**  
  1:00pm - 1:50pm Tuesday, August 30, 2022

- **Introduction to Federal Policy and Legislative Resources**  
  3:30pm - 4:30pm Wednesday, August 31, 2022
Open Access Publishing Assistance

- WVU Libraries Open Access Author Fund
  - Journal has to meet criteria on OAAF webpage
  - $1,500 maximum award

- Discounts with OA Publishers
  - BioMed Central/SpringerOpen journals - 15% discount on APCs
  - MDPI Journals - 10% discount on APCs

- WVU authors can publish **OA for free** in
  - All PLOS journals
  - Cambridge University Press gold OA and hybrid journals
Open Educational Resources

• Open Textbook Workshop and Textbook Review Mini-Grant
  • Attend 2-hour workshop, discover OER textbooks in your field, write a review of a textbook and receive $200 stipend

• Incorporate, Innovate, Create: OER Grants
  • These awards range from $300 - $3,500
  • A showcase of winners is on the OER Grant Research Guide

• For more information, contact Martha Yancey at martha.yancey@mail.wvu.edu
You're Invited!

WVU Libraries' New Faculty Welcome Party
