Tips for Establishing Your Classroom Management System

- Involve all participants in each class session using a variety of strategies.
- Permit learners to engage differently compared to traditional classrooms.
- Position the space for all to see, hear, and be comfortable.
- Facilitate learner ownership of the space during each class session.

Tips for Establishing Your Instructional System

- Provide support coaching, mentoring, and assessment on an ongoing basis.
- Afford learners access to a variety of technologies to create and collaborate.
- Support multiple learning preferences when planning your instructional tasks.
- Share your instructional content using multiple modes of delivery.
